

ATLANTIC.NET CLOUD PLATFORM (ACP)

- ✔ Cloud Servers
- ✔ Multi-Factor Authentication
- ✔ Intrusion Prevention
- ✔ Managed DRaaS
- ✔ Secure Block Storage
- ✔ Regulatory Compliance
- ✔ Dedicated Hosts
- ✔ Managed Services

The Atlantic.Net Cloud Platform is built upon 25 years of industry-leading experience. Our global cloud platform is designed to be secure, lightning-fast, and a spectacular value.

ACP is a business-ready platform that has powered millions of production workloads while streamlining workflows and reducing costs. Launch and scale your business online with Atlantic.Net's Cloud Platform and Managed Services today!

Our Data Center Certifications

CLOUD SERVERS

Atlantic.Net's Cloud Servers has standardized plans to choose from or custom plan sizes to ensure the perfect fit for your company's requirements. With up to 80 vCPU cores, 4 TB of Memory, and 20 TB of SSD space, there is no requirement too large to be fulfilled.

With ACP's Cloud Servers, you have the option to deploy them in Public Cloud, Virtual Private Cloud (VPC), or Private Cloud Hosts with Dedicated Hosts.

DEDICATED HOSTS

Our Dedicated Hosts are private computing nodes that are fully dedicated for your use with no shared resources with other customers.

Create Cloud Virtual Servers, block storage, ssh keys, private and public IPs, DNS records, and more, all within a user-friendly interface on your own Dedicated Host Node.

SCALE YOUR ENVIRONMENT

There is no reason to purchase more resources than your company needs with Atlantic.Net. Start off with the right fit for your needs and scale your server up to meet your growing demand. Never be limited by physical resources again!

ACP CLOUD BACKUPS

Combining Atlantic.Net's highly advanced proprietary storage solution and our extensive cloud platforms enables us to deliver on-site and off-site backup and replication services that are lightning quick, robust, and fault tolerant. Our Backup technology is highly configurable, and the snapshot-based backup happens automatically on a predefined schedule:

- ✔ 5 Minutes - recommended for priority one servers
- ✔ Hourly - commonly used for file servers or application servers
- ✔ 15 Minutes - recommended for business-critical systems
- ✔ Daily - for low priority servers such as workstations or terminals

ATLANTIC.NET CLOUD PLATFORM (ACP)

MANAGED AND SECURITY SERVICES

Our broad range of managed and security services provide a clear and significant advantage to our clients. We easily tailor our services to the ever-changing business needs, which means we stand ready to match our client's requirements. Our managed services are backed by the best available resources and unmatched system designs.
