“With Atlantic.Net, [their support team] knows what the issue is, it’s always dealt with, and they know what’s happening. The support has been great. You all seem to take a lot of responsibility for the service that you’re offering. We appreciate it. The other key thing with Atlantic.Net is that the uptime has been fantastic. I don’t think we’ve had any outage that Atlantic.Net was responsible for the whole time we’ve been with you. That’s been super good.”
