

HIPAA COMPLIANT HOSTING

BY ATLANTIC.NET

ABOUT ATLANTIC.NET

With over twenty years of experience in designing compliant hosting networks, Atlantic.Net understands and designs systems according to the security guidelines established by HIPAA. Atlantic.Net provides a tested HIPAA compliant hosting solution found to be in compliance to the government regulations regarding the physical and environmental controls, operational safeguards and the management oversight of the environment. Our HIPAA-compliant-ready hosting services provide an isolated, secure environment for each customer's applications and databases.

HIPAA COMPLIANT HOSTING

BY ATLANTIC.NET

HIPAA MANAGED SERVICE

In addition to our hosting services, Atlantic.Net provides a number of different managed services to assist healthcare providers in meeting their HIPAA compliance needs. Whatever your hosting needs as a healthcare provider, Atlantic.Net's got you covered. Custom-built HIPAA-Compliant Hosting solutions are our specialty, and we have over two decades of experience in providing them. It's not just our expertise that makes us a great choice, though – it's also our infrastructure.

Share with us your vision and goals, and we will develop a healthcare hosting environment tailored to your HIPAA Compliance needs!

We switched to Atlantic.Net and we couldn't be happier. Their customer support is PHENOMENAL. They worked with us to create, customize, and configure environments for each one of our clients.
