WHITE LABEL CLOUD SERVICES

Your Brand, Your Cloud

The screenshot shows the 'HOSTING LEADER' interface. It features a 'Type' section with 'Operating Systems' (Ubuntu, CentOS, Debian, Fedora, FreeBSD, Arch, Windows) and 'Applications'. Below is a 'Plan' section with categories: 'General Purpose', 'Storage Optimized', 'Memory Optimized', and 'Compute Optimized'. Several plan options are listed with their respective specifications (RAM, vCPU, SSD, Transfer).
